Programme

Overview of the seminar programme

Welcome to the Royal College of Psychiatrists

How to be a failure as a mental health researcher:
strategies for success and failure

'The anthropologist on call':
using anthropology in everyday psychiatry
Lived experience through historical method

User-focused research:
new methods and new epistemologies

Beyond epidemiology:
combining quantitative and qualitative

Collaborative film-making as method

Embodiment and voice-hearing

Royal College of **Psychiatrists**

The Royal College of Psychiatrists is the professional and educational body for psychiatrists in the UK/Republic of Ireland.

We promote mental health by:

- setting standards and promoting excellence in mental health care
- improving understanding through research and education
- leading, representing, training and supporting psychiatrists
- working with patients, carers and their organisations

www.rcpsych.ac.uk

The Royal College of Psychiatrists' Research and Training Unit (CRTU), was established in 1989.

The CRTU has four centres:

- College Centre for Applied Research
- Centre for Quality Improvement
- National Collaborating Centre for Mental Health
- Education and Training Centre

The CRTU's work is strongly multidisciplinary and highly collaborative, involving professionals, users, carers, and policy making organisations
